

Classic Knitwear

MACHINE KNITTING
IN 4 PLY

INTRODUCTION

Well made classic knitwear will never date, and will always be right for town or country wear. With this book of patterns and your knitting machine you too can knit classics for the whole family.

Beginners, even those who have never produced a machine knitted garment before will find these patterns very easy to follow. A tip for beginners not used to reading patterns is to circle the size and instruction in pencil (so it can be erased) making them much more easy to read.

An explanation of the fully fashioned shapings and ribs are also given, so no problems should be encountered with any of the procedures.

The more experienced knitter will find these classic shapes very simple to knit and may want to use them as a base for more individual knitwear. With your knitting machine and its capabilities the variations which can be achieved are quite endless. We have included four simple variations on the back cover and centre pages to encourage you to start using your imagination, and to show you just how different a pattern can look with a little thought.

A simple variation is to put stripes anywhere you want, they do not have to be in orderly lines of a set number of rows, some of today's more modern knitwear is just many rows of different colours blended together, try it — you will be quite surprised.

The fairisle designs were knitted by John Sutton using Knitmaster cards, locking the cards and changing colour at random.

TENSION AND YARN

These garments were all knitted on a Knitmaster machine but a similar tension can be achieved on any single bed machine using a 4 ply coned yarn.

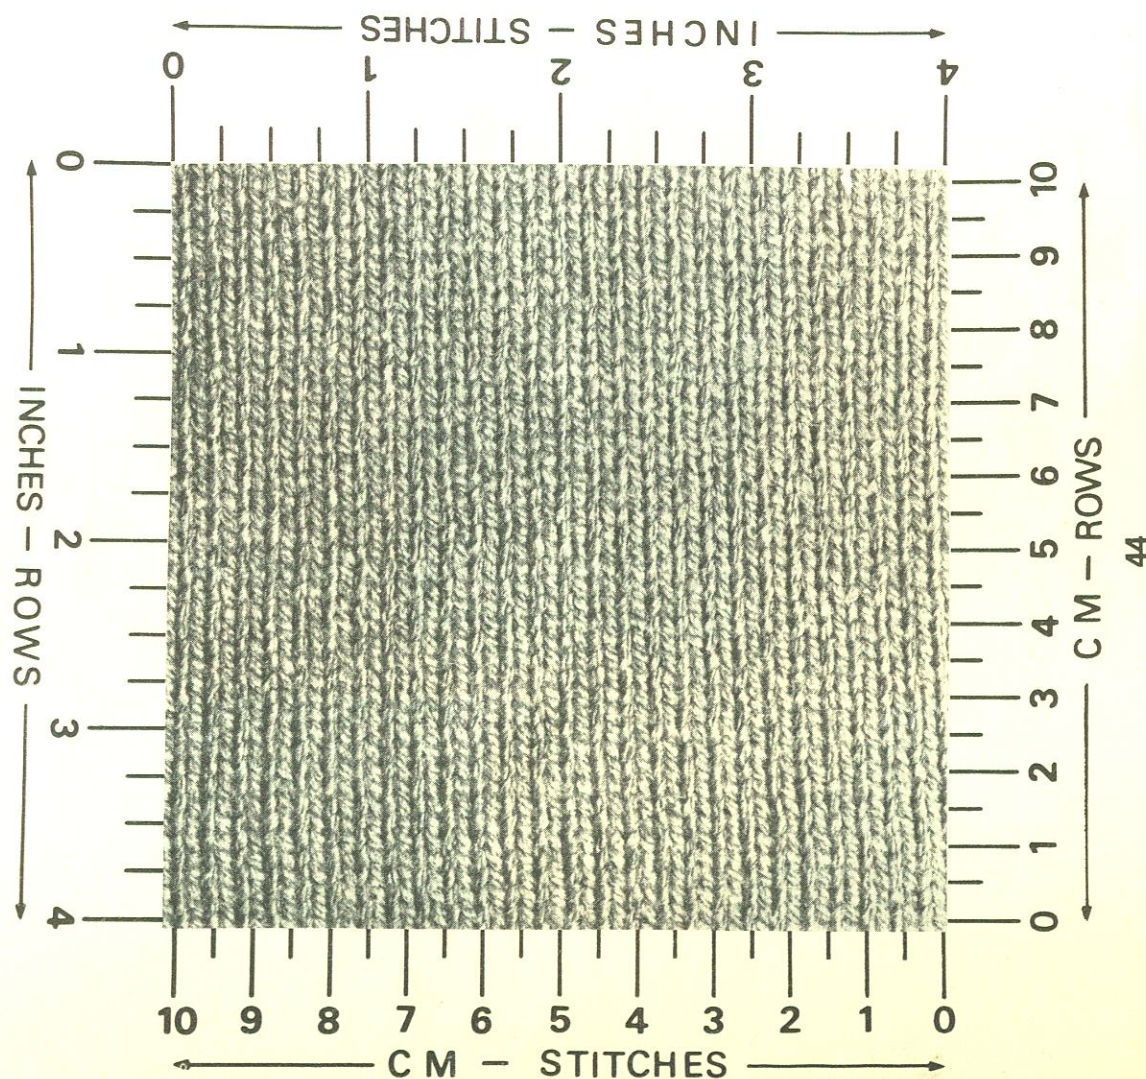

An important part of successful knitting is correct tension. Most people find it tedious to make tension swatch but it really is essential. It takes a few minutes on your machine and can make so much difference to the finished garment. Every machine may vary a little so all tensions given are always approximate. To achieve perfect results get into good habits and start making tension swatches.

Cast on over 60 needles with waste yarn, knit a few rows; change to main yarn and approximate tension, knit 60 rows, change to waste yarn, knit a few rows and release from machine. Leave for at least two hours before pressing and measuring — if not correct change tension dial up or down according to your swatch.

TENSION

For all patterns in this book approximate tension 7.

NOTES ON RIB AND FULLY FASHIONED SHAPINGS

2 x 1 RIB

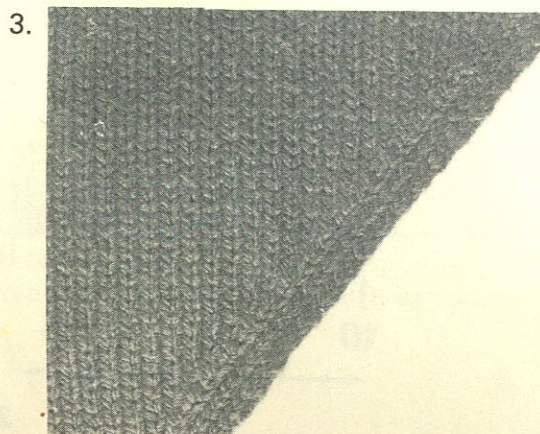

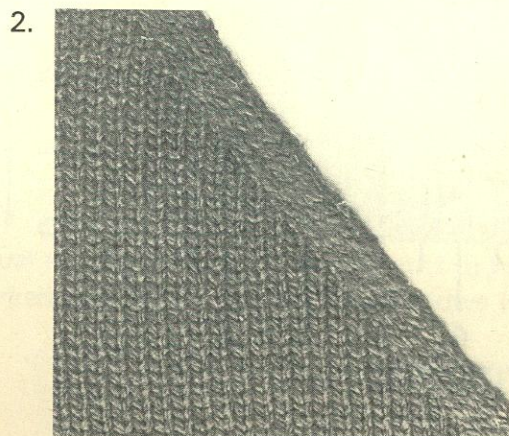

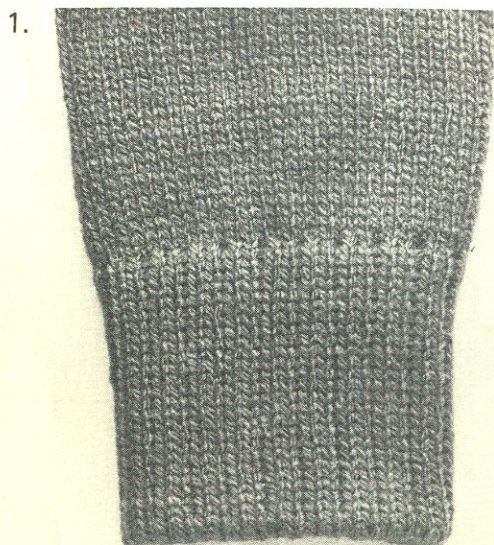

1. Push required number of needles into 'B' position, then push every third needle back out of working position. After knitting required rib, given in instructions turn up hem. Start from the right, place the 1st loop above the nylon cord onto the 1st needle, next place the larger loop onto the third needle without a stitch on, bringing it back into working position. Continue placing the loops onto the second of the two needles with stitches, and placing the larger loop on every third needle bringing it to working position until hem is complete.
After knitting a few rows of pattern pull out nylon cord and release waste yarn.

FULLY FASHIONED — DECREASE

2. using 3 x 1 tool.
Transfer the 4th stitch onto the 5th needle and move the 3 end stitches in one, leaving 1 empty needle at end. Push the needle out of working position.

FULLY FASHIONED — INCREASING

3. Transfer the 3 end stitches out one needle. The 4th needle is now empty. Pick up the loop below the 5th needle and place on 4th needle.

ROUND NECK BANDS AND MAKING UP

SWEATER

The best way to finish off a neckband is to take it off the machine on waste yarn — fold to the right side of work — pin into position — then remove the waste yarn and back stitch the open loops onto the right side of garment.

RAGLAN BANDS

Press pieces with cool iron, join all Raglan seams leaving left back open, with right side of work facing you and working from the right pick up stitches — across back — down top of sleeve shaping and cast off stitches — down front shaping — across centre front — up front shaping top of sleeve — cast off stitches — and up sleeve shaping.

INSET BANDS

Press pieces with cool iron, join right shoulder, with right side of work facing you, and working from right, pick up stitches across back — down front shaping — across centre front — up front shaping.

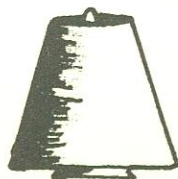

KNITTING BANDS

Pick up stitches as above. Tension dial at main tension knit 1 row, transfer stitches for 2 x 1 rib, pushing empty needles back to A position.

CARDIGAN BANDS AND MAKING UP

Cardigan bands are easier to knit separately and are knitted double on single bed machines. After knitting bands, working on right side of both band and cardigan front, join with mattress stitch — then fold to inside and slip stitch to inside of garment. Button holes should be worked as required either on the left or right band; instructions are given on next page.

ROUND NECK BANDS

Press pieces with cool iron, and sew up all seams and Raglans. The front bands are knitted separately up to the front neck shapings then the stitches are picked up as for round neck sweaters. With the right side of work facing and working from right — pick up stitches starting from right front band, finishing at left front band. Knit in stocking stitch.

KNITTING ROUND NECK CARDIGAN BANDS

Pick up stitches as above. Tension dial at main tension knit 1 row.

Main Tension knit 2 rows, change to waste yarn and release from machine.

V NECK BANDS

Press pieces with cool iron, and sew up all seams and Raglans. The bands are knitted in two pieces. The first band to fit down one front to back Raglan or back inset shoulder. The second band knitted to fit down one front and across back. Then joined at back shoulder.

TO COMPLETE

Join bands and give final press.

BUTTON HOLES ON DOUBLE BANDS

SMALL BUTTON HOLE OVER 1 NEEDLE

Using a single transfer tool transfer the 4th stitch each side of centre 0 onto adjacent needle, leaving empty needle in B position. Continue knitting, repeat hole when required.

MEDIUM BUTTON HOLE OVER 2 NEEDLES

Using a single transfer tool transfer the 4th and 5th stitches each side of centre 0 onto adjacent needles. Push the 5th needles back to A position leaving the 4th needles in B position. Knit 1 row. Bring the 5th needles back to B position and pick up loop below the 4th needle and place on empty needle. Continue knitting, repeat hole when required.

LARGE BUTTON HOLE OVER 3 OR MORE NEEDLES

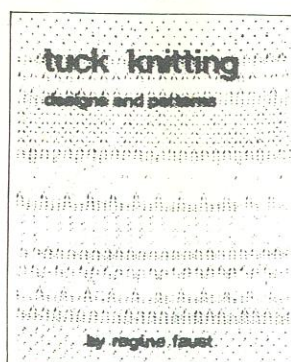

Using about an 8 inch length of main yarn, with long lengths at left, cast off 4th 5th 6th 7th needles each side of the centre 0. Bring the empty needles to D position, cast on by hand working from left (wind length of main yarn round needles to form letter e) and with levers on 11 knit 1 row. Lay cord between needles and sinker gate knit 1 row continue knitting, repeat hole when required. Pull out cord.

MACHINE KNITTING BOOKS

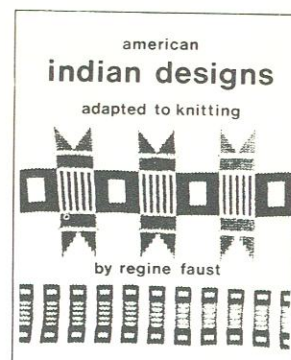

By Regine Faust

FASHION KNIT (£9.75) consists of 267 pages, graphs, photographs and instructions. It gives the whole Fashion Knit Course Outline as taught at Sheridan College, through well-developed exercises. It is a perfect guide to everyone who wants to learn more than just the basic steps about machine knitting.

TUCK KNITTING (£9.25) consists of 208 pages. Over 100 full page photographs of Tuck Designs with matching graphs or punch cards and instructional hints. Tuck patterns have become so popular in Fashion or Sportswear Knits. This book opens a whole new era in Knitting.

INDIAN DESIGNS (£10.75) has approximately 200 pages with American Indian designs and motifs adapted to knitting. It has full page photographs and matching punch cards which can be used as graphs for hand-knitting as well. It contains chapters of instructions and special hints for Fair Isle or knit-in techniques, repeating designs and single motifs.
